

I am a listener of xm radio and enjoy the features it has to offer. I hope you decide against any attempts to pass petition 04-160. It is an invaluable service, the traffic and weather, anytime you are traveling, you don't know the local stations to get weather and traffic. This is a premium service I chose to pay for, I think the good far outways the "supposed" negative points. I hope you consider this in your desicion. Thank you.
